

Professional Maintenance Services

Intertech also offers:

- Minor carpet repairs
- Upholstery, fabric panel and area rug cleaning
- Deodorization and disinfection of mold and mildew
- Maintenance consulting – we'll educate your in house or janitorial staff on proper techniques to keep your floors looking and performing like new.

Did You Know?

For every 1,000 employees, approximately 26 pounds of dirt is tracked into a typical commercial facility each month.

Intertech Flooring's Continuous Care Maintenance keeps dirt off your carpet and hard floors before damage can occur!

Continuous Care to Protect Your Flooring Investment.

You've made an investment in your flooring. Now invest in its future.

Intertech Flooring's maintenance services help you protect your investment, and maximize the functional and aesthetic lifespan of your carpet and hard floors.

Intertech's Continuous Care Maintenance is unlike any other maintenance program. Our expertly trained maintenance department leverages its three decades of carpet and hard floors maintenance experience with Fortune 500 companies nationwide. Intertech's maintenance experts:

- **Create a customized service plan** tailored to your unique needs, based on an assessment of your facility, traffic patterns and potential problem areas.
- **Provide invaluable consultation** and recommendations for daily care and proper maintenance and spotting techniques.
- **Apply the safest, greenest and most effective** carpet cleaning processes using state of the art equipment.
- **Dedicate a team to your building** and your maintenance concerns, using no subcontract labor.
- **Provide interim and periodic cleanings** to remove soils from foot traffic, and flooring revitalization when periodic maintenance is not enough.

Get Clean. And Be Green.

As the exclusive provider of the proprietary ResisTech™ carpet maintenance, Intertech uses the safest, most effective carpet cleaning processes and state of the art equipment.

Our unique earth-friendly carpet maintenance services using the Dry system can extend your carpeting investment by:

- Removing dry dirt safely.
- Lifting the pile.
- Deep cleaning carpet and removing spots and spills immediately with no down time.
- Our hard floor program encompasses the initial care of new floors, periodic maintenance and complete restorative services. We can perform these services on VCT, rubber, linoleum, vinyl, cork, ceramic, concrete just to name a few.

With Intertech Continuous Care Maintenance, you can be 100% clean and 100% green.

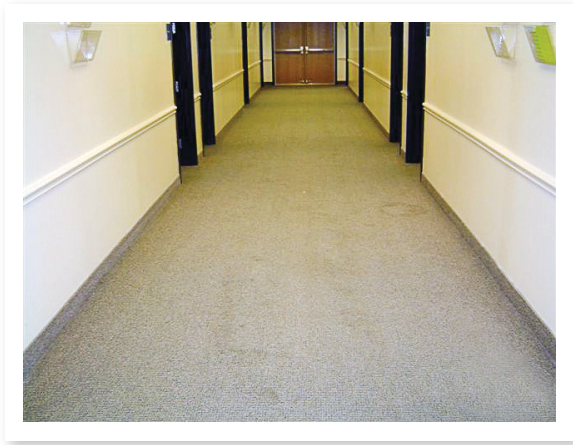

Trust Your Flooring Investment to the Flooring Experts.

Making the right decisions on maintaining your carpet is as important as making the right decision on the carpet itself. Protect your flooring investment with preventive, ongoing maintenance using earth-friendly products and professional expertise that lengthen its lifespan.

Professional Maintenance Services

◀ **BEFORE:**

This area had been cleaned by another maintenance company, and yet spots, spills and ground-in dirt had reappeared.

◀ **TEST CLEANING:**

This area is being prepped for a test cleaning, to evaluate the extent of soiling. For 13 years, the carpet had been maintained by an in-house janitorial service which had not used proper maintenance techniques. Intertech's first step was to do a test clean to evaluate the extent of damage to the carpet's backing and fiber.

◀ **COMPLETE:**

After evaluating the test results, Intertech opted to perform a two-day restorative cleaning. On day one, we neutralized all chemicals and pulled out dirt and chemical residue that had been left in the carpet by improper cleaning. On day two, after the carpet was completely dry, Intertech performed a dry powder cleaning, a process that removes any residue left in the carpet. This photo shows the result after the service; the right side is the finished product.
